Professional Summary

React Front-End Engineer with hands-on experience delivering 3+ full-stack web applications, specializing in scalable, mobile-friendly interfaces built with React and JavaScript (ES6+). Skilled in REST API integration, authentication, and component-based architecture. Led the client-side development of a real-world tourism platform while managing a team of 3 developers. Continuously exploring new tools and AI-assisted workflows to sharpen delivery speed and code quality.

Professional Experience

Professional React Developer

02/2026 – 07/2026

Digilians – Presidential Initiative (Digital Pioneers)

Capstone Project: Kemet – Tourism & Travel Platform

Frontend Team Lead

Tech Stack: React, Vite, Tailwind CSS, Axios, Leaflet, Framer Motion, JWT, Google OAuth, Node.js, Express.js, MongoDB Atlas, Stripe, PayPal

- Led a team of 3 developers, coordinating delivery across 6 sprints using Git branching workflows.
- Built a travel platform with 15+ reusable components structured with React Router, Context API, and Redux Toolkit.
- Integrated 10–15 REST API endpoints via Axios, using JWT Authentication and Google OAuth.
- Developed role-based User & Admin Dashboards styled with Tailwind CSS, used by 25+ test users during QA.
- Implemented interactive maps using Leaflet and page transitions with Framer Motion across 20+ destination pages.
- Integrated Stripe and PayPal payment gateways on a Node.js/Express.js and MongoDB Atlas backend, tested with Postman.
- Improved page load performance by 30% through Vite code-splitting and lazy loading, then deployed to Vercel.

Projects

Exclusive – E-Commerce Platform

github.com/basem-samir/ecommerce

Tech Stack: React, Vite, Tailwind CSS, Axios, REST APIs

- Developed a mobile-friendly e-commerce web application with React, spanning 15+ pages.
- Integrated REST APIs for products, authentication, and user data across 10+ endpoints.
- Built authentication, shopping cart, wishlist, and checkout features end-to-end.
- Implemented product search and filtering across a catalog of 50+ products.
- Optimized performance across all devices, reaching a Lighthouse score of 90+.

Inventory & Product Management Dashboard

github.com/basem-samir/Product-Manager

Tech Stack: JavaScript (ES6+), HTML5, CSS3, Local Storage

- Built an adaptive inventory and product management dashboard handling 100+ SKUs.
- Implemented complete CRUD operations and real-time inventory calculations.
- Built search, category filtering, and Excel/PDF import/export for 100+ records.
- Applied modular JavaScript architecture, cutting code duplication by 25%.

Technical Skills

Programming Languages	JavaScript (ES6+), HTML5, CSS3
Frontend Development	React.js, React Router, Redux Toolkit, Context API, Axios, Vite
UI & Styling	Tailwind CSS, Bootstrap, CSS Modules, Framer Motion
Backend Fundamentals	Node.js, Express.js, MongoDB, Firebase
Authentication & API Integration	REST APIs, JWT Authentication, Google OAuth
Development Tools	Git, GitHub, VS Code, Postman, Chrome DevTools, ESLint, Prettier, npm, Vercel, Netlify, Railway, MongoDB Atlas, Figma
AI Productivity	ChatGPT, Gemini, Claude

Soft Skills

Problem Solving, Communication, Team Collaboration, Leadership, Adaptability, Critical Thinking, Time Management, Attention to Detail

Education

Bachelor of Computer Science

2023

Faculty of Science, Tanta University

Grade: B

Certifications

- Professional React Developer *Issuer: Digilians Digital Pioneers Initiative*
- Meta Front-End Developer – Professional Certificate *Issuer: Coursera*
- Responsive Web Design *Issuer: freeCodeCamp*
